THURSDAY MORNING, JUNE 21, 1866.

MORMON DUPLICITY.

One year ago this month Speaker Colfax and his party visited this city—when the polygamists of Utah were prolific in their professions of loyalty and morality. The Prophet received the distinguished visitors with his usual urbanity, and most graciously assured them that polygamy was not an essential doctrine of the Mormon Church, that it was in fact only an “abused privilege,” that the South was entirely in the wrong, and he had always known it, and, finally, that there was not a more loyal people in existence than the polygamists of Utah. Instead of the usual talk of “double-barreled shot guns” and “small pores lots,” the press and the pulpit, for the time being, breathed a spirit of meekness, virtue, and forbearance, such as could only be expected from the persecuted Saints on earth.

Of course Mr. Colfax and his companions were delighted with the aspect of affairs. They returned to the East and made public their conviction that the Mormons were not so bad after all, they would doubtless renounce polygamy within a very short time, and every thing would go on smoothly.

But this pleasing delusion was destined to be rudely broken. No sooner had the party left than the monster again displayed its covetous, and Mr. Bowles in the Supplementary Papers of his Across the Continent says:

“Since our visit to Utah in June the leaders among the Mormons have repudiated their professions of loyalty to the Government, denied any disposition to yield the issue of polygamy and began to preach anew and more vigorously than ever disrespect and defiance to the authority of the National Government.”

These remarks were called out by the distasteful and defiant tone of the polygamous sermons and editorials of which the harangues of Brigham Young and G.

A. Smith, delivered at Tooele City, Sunday, August 1865, and reported by Mr. James W. Gibson, are an example. On this occasion Elder Smith, the Church Historian and one of the “Twelve Apostles,” said:

“The Lincoln administration did not want peace with the South, but wanted to destroy and devastate all the good Southern people.” “The Northern army burned and destroyed everything in the South, and abused by force all their women. They would be here some day to treat the fair women of Utah in like manner, and all, both old and young, should have plenty of arms.” He said our Government is not at peace and he did it, and hoped to see the day when it would sink to the same time and place Brigham Young said:

If they undertook to try him in a Gentile court he would see the Government in h—l first, and was ready to fight the Government the rub. He had his soldiers and rifles and pistols and ammunition and plenty of it, and cannons too, and would use them. He was on it.

The Governor of this Territory was useless and could do nothing. He (Brigham) was the real Governor of this people, and by the powers of the Most High he would be Governor of this Territory forever and ever. If the Gentiles do not like this they could leave and go to h—l. Nine-tenths of the people of the Territory were Southern sympathizers, the North was wrong and this people sympathized with the South.”

Now in regard to the polygamy question. We were present at the Tabernacle on the 8th of April, 1866, when John Taylor, another of the “Twelve Apostles,” said:

The man who is not a polygamist is on the high road to apostasy; yes he is an apostate.”

Heber C. Kimball next spoke and said: “He endorsed Brother Taylor’s remarks and if any U.S. Judge married any of his wives to any one, he would shoot the d—d cuse, and he wanted all to do the same.” (Chorus of amen.)

Brigham Young followed and said:

I will now give you, in short, my opinion with regard to plural marriages. It was of God, and He revealed it from the Heavens and made it obligatory upon the Saints in the last days.”

BRITISH SMELTING COMPANIES. — The subject of smelting our ores is beginning to attract attention beyond the limits of our own country. We have long been of the opinion that smelting is the true process by which our ores ought to be reduced. No process of roasting-smelting yet adopted has saved more than seventy-five per cent of the gold contained, while the Silver is entirely lost.

The fact of our failure has become so notorious that British capitalists are seeking to investigate the matter. In the Stock-Holders we find the following:

Professor Hill of Providence, R. I., has just returned from Europe, where he has been visiting the works for the reduction of ores. It is probably in pursuance of his suggestions that one of the greatest smelting firms at Swansea, in Wales, which keeps in operation 150 furnaces, have sent out its agents, to conduct investigations with a view to the establishment of smelting works in Colorado. It is found, remarkable as the result may appear, that from ores worked in Colorado with a gross yield of only \$10 per ton, the amount of \$600 per ton has been realized in the treatment at Swansea.

Whether it is proposed to put up reverbatory or blast furnaces is not stated. We are inclined to prefer blast furnaces. But this must be decided by future experiments and experience.—Mining Register, (Col.)

The gold crop of the world will probably reach \$100,000,000 this year. Previous to 1860 the average annual yield was less than \$30,000,000.

BY PACIFIC TELEGRAPH.

[SPECIAL TO THE DAILY UNION VEDETTE.]

CONGRESSIONAL.

SENATE.

Washington, June 13.

The Pacific Railroad Bill is now under discussion, authorizing the Union Pacific Railroad, with the approval of the Secretary of the Interior, to locate and construct their road from Omaha westward according to the most practicable route. While the above question was pending the morning hour expired, and the special order, which was the bill to regulate the occupation of mineral lands, was taken up and discussed by Sherman, Hendricks, McDougal and Stewart.

On motion of Howard, the House joint resolution requesting the President to transmit to the several States for ratification the amendment to the Constitution, was taken up and passed.

HOUSE.

Washington, June 13.

Asbury introduced a bill granting the right of way and other privileges to aid the construction of a draining and exploring tunnel to the Comstock lead, which was read twice and referred to the Committee on Mines and Mining.

Bidwell introduced a bill to encourage the construction of a telegraph line between Idaho and California, which was read twice and referred to the Committee on Public Lands.

The Speaker stated that the Constitutional amendment was published officially by the Secretary of State this morning.

Washington, June 19.

Prie, from the Pacific Railroad Committee, reported the Senate bill granting aid in construction of a railroad and telegraph from Folsom to Placerville, with amendments, one of which reduces the width of way to 100 feet each side of the track, and another strikes out that part of the bill which permits the company to select alternate sections at a distance of not more than twenty miles.

Considerable debate arose, participated in by Prie, Higby, Kasson, Hale, Pike, Julian and others, after which the House refused to second the demand for the previous question, and on motion of Julian, referred the bill and amendments to the Committee on Public Land.

GENERAL NEWS.

New York, June 18.

The Commercial’s money article says that gold opened with desperate efforts on the part of the bulls. Specie payments this week will be merely nominal. There is every indication that we have at last reached the end of the specie drain. There have been days when the fluctuations in gold were wider, but they were more frequent to-day and the excitement was greater than on any previous day in the history of the gold market. The transactions have been enormous.

New York, June 19.

The Post’s money article says the excitement in gold seems to have exhausted itself. The loan market is easy, and the government and other new stocks are steady. The highest speculative prices of yesterday afternoon are not being sustained, but there is, however, a decided advance upon yesterday’s first board.

Cotton dull at 39@41. Sale of the week, 8,000 bales. Flour less active and 10c lower. Freight to Liverpool dull and decidedly lower.

FOREIGN NEWS.

Farther Point, June 18.

The steamship Peruvian from Liverpool 7th and Londonbury 8th, has passed en route to Quebec.

Consols closed the 8th at 86@86½ for money; 5-20s fixed at 64.

Bullion in the Bank of England has increased one million four hundred thousand pounds.

Cotton sales of the week 11,000 bales; market opened buoyant with advance, which was lost, and closed with a decline of 1/2@ on the week. Sales to speculators reached 6,500 bales and to exporters 9,500.

The Prussian troops entered Holstein on the 7th. The Austrians were concentrating at Altona. These moves are regarded as a virtual commencement of war.

In the British House of Commons the opposition had attempted a surprise on the Government by moving a postponement of the franchise clause in the reform bill, but were defeated by a small majority.

Halifax, June 18.

A steamer from Liverpool the 9th via Queenstown 10th arrived.

Consols closed Saturday eve 86½@86½ for money; 5-20s fixed at 66@66½.

Additional by steamer—The Continental news comes warlike. Bismarck had issued an important circular, dated the 4th inst., addressed to the Prussian Representatives abroad. He says: All our information agrees that the determination to make war is settled in Vienna, not only was there manifested the entire absence of all readiness to enter into confidential negotiations and discuss the possibilities of agreement, but expressions of influential Austrian statesmen and counsellors of the Emperor have been reported to the King from an authentic source, which leaves no doubt that the Imperial Minister desires war at any price; partly in hope of success in the field and partly to heal over domestic difficulties, may even Austrian finances by Prussian contributions or by honorable bankruptcy. The fact of war is a settled determination at Vienna. The only further point is to choose a favorable time to begin.

The London Times says such a dispatch as the above has not often been penned by an European Minister. The Prussian Statesman now thinks courtesy unnecessary in his communication with Austria. All the pride, the bitter hostility, the most unfriendly purposes which have been necessarily repressed during the long negotiations, may now be considered at an end. The dispatch breathes the spirit of war, and seems to have been written in anticipation of immediate rupture.

The London Telegraph say, with this dispatch the last hope of peace has disappeared, and hostilities become inevitable. A Prussian division, under Gen. Fries, had crossed the Elster at Holstein. They are said to be ordered to occupy Rendsburg, Kiel and Itzehoe.

One part of Alabama is rapidly filling up, and that is the penitentiary. The season opened at Cape May on the 31st of May.

Ex SENATOR GWIN, since his release from Fort Jackson, has gone to the plantation of his brother, in Isaacson county, Miss. He is said to be in robust health.

The London Telegraph say, with this dispatch the last hope of peace has disappeared, and hostilities become inevitable. A Prussian division, under Gen. Fries, had crossed the Elster at Holstein. They are said to be ordered to occupy Rendsburg, Kiel and Itzehoe.

A genuine African resides in the Memphis Freedman’s Bureau Court.

fully met by the American garrison, who evacuated the post the same day. The parting was friendly. Gen. Goldstein issued a proclamation protesting against the Prussian occupation of Holstein. It is stated that he daily expects orders to attack the Prussians and use every effort to remove them. He has announced the transfer of the government of the Duchy of Holstein to the city of Altona. It is reported that the Prussians would forcibly prevent the assembly of the estates of Holstein at Altona.

The latest accounts say that the Emperor of Austria has ordered Goldstein to avoid any engagement. Goldstein is further ordered to retain the civil functionaries in power and delay the declarations of martial law. The Emperor claims that affairs now stand as they did previous to the Gastein Convention.

Vienna dispatches say that diplomatic relations between Austria and Prussia will cease the moment the Prussian delegation to the Diet leaves Frankfort to return to Prussia.

The Crown Prince of Prussia has been appointed governor of Silesia during the mobilization of the army.

From Pahranagat.

Pahranagat City, U. T., May 27, 1866.

EDITOR VEDETTE—Sir:—I noticed in the “Weekly VEDETTE,” of April 19th, an abstract taken from the Virginia Union, pretending to give a history of Pahranagat Mines and Valley, in which he is altogether wrong, and which it unnoticed would give a wrong impression to those unacquainted with the mines or valley. The mines are located about ten miles west from Pahranagat City, which is situated at Crystal Springs, 9 in number, about six miles from the extreme northern end of the valley and about twenty-five miles from the southern end. Pahranagat City is the point where the principal roads of the country center; a good, well traveled road leading to the mines, west, and to Call’s Landing, south, there is also a good natural road to Southern California, while the best and most direct road from Great Salt Lake City terminates there. It is about 130 miles to Call’s Landing, over one of nature’s finest roads, abounding with water, grass and wood. Pahranagat City was started but a few months since, September last, and contains several fine brick houses, one hotel, livery and feed stable, &c. &c. It is in every respect a fine and thriving town. In the center of the village, and forming one of the most lovely and picturesque sights that ever mortal eye beheld, and of which New York City might be proud, are the famous Crystal Springs, nine in number, whose waters are so clear that a person can see, with the naked eye, the most minute grain of sand that lies upon the bottom. At the City Hotel can be procured good substantial meals, while at Chauchorn & Berryman’s Livery and F. E. Sibley’s Stable, carriage teams, saddle horses, hay and grain can be had at very low prices. In fact anything in the line of produce, groceries, hay, grain, &c., can be found in Pahranagat City. There are several companies at work in the mines, bringing forth that from which the article we all so much covet is extracted, “silver bricks.” And it will not be long before several mills are ready to employ several mills. There is one of our Mills (W. H.) turning out the “silver bricks” until you can’t rest. More anon. Yours in haste

“CRYSTAL SPRINGS.”

Eastern Items.

On Saturday last, W. F. Coolbaugh, Esq., Chairman of the Committee of Arrangements for laying the corner-stone of the Douglas Monument, received a telegram from Thomas Hoyne, Esq., and Col. J. H. Boyce, stating that they had succeeded in getting the consent of President Johnson and the Cabinet to attend the ceremonies of the laying of the corner stone of the proposed monument.—Chicago Post, 4th.

Chas. A. Daia, late of the Chicago Republicans, is in Washington as a witness before the Blaine-Conkling Investigation Committee. It is asserted he will contradict several statements in Gen. Fry’s letters.

The Republican delegates to the Congressional Convention from Des Moines are instructed to cast the entire vote of the county for John A. Kasson. The report of Mr. Kasson’s recent marriage is contradicted.

Pickpockets enjoyed a golden harvest at West Point on the occasion of Gen. Scott’s funeral. Many distinguished characters were relieved of money and valuables. Gen. Grant, it is stated, lost his watch, and Schuyler Colfax his purse.

A dispatch from New York says that the Courier des Etats Unis declares itself enabled to say that the French Government has signed a treaty with the Trans-Atlantic Packet Company to embark and carry back to France the whole French expeditionary force in Mexico within the time agreed upon.

The Republican delegates to the Congressional Convention from Des Moines are instructed to cast the entire vote of the county for John A. Kasson. The report of Mr. Kasson’s recent marriage is contradicted.

Charles O’Connor has had interviews with the President concerning the trial of Jeff Davis. He says they are ready to proceed with the trial, and if the Government is not ready, they will ask the release of Davis on parole, with such security as the Government may ask. They offer bail from \$100,000 to \$10,000,000.

Commodore H. K. Thatcher will be ordered to the command of the North Pacific Squadron, which, as reorganized, will probably consist of the flag-ship Pensacola, Lackawanna, Vanderbilt, Saginaw, Camanche, Saranac and St. Mary’s.

The Hon. E. D. Culver has resigned the office of United States Minister to Venezuela and returned home. Hon. James Wilson, of Indiana, has been appointed to fill the vacancy.

Capt. John Cook, formerly one of the Rebel General Lee’s staff, was arrested recently in Chicago for being the husband of two wives. He was held to answer.

Gerrit Smith is out in a long letter, opposing any manner of a civil trial for Jeff Davis.

One part of Alabama is rapidly filling up, and that is the penitentiary.

The season opened at Cape May on the 31st of May.

Ex SENATOR GWIN, since his release from Fort Jackson, has gone to the plantation of his brother, in Isaacson county, Miss. He is said to be in robust health.

The London Telegraph say, with this dispatch the last hope of peace has disappeared, and hostilities become inevitable. A Prussian division, under Gen. Fries, had crossed the Elster at Holstein. They are said to be ordered to occupy Rendsburg, Kiel and Itzehoe.

The Austin Daily Telegraph say, with this dispatch the last hope of peace has disappeared, and hostilities become inevitable. A Prussian division, under Gen. Fries, had crossed the Elster at Holstein. They are said to be ordered to occupy Rendsburg, Kiel and Itzehoe.

A genuine African resides in the Memphis Freedman’s Bureau Court.

Local and Miscellaneous.

GO ADVERTISING.—The *Advertiser* is the pioneer daily newspaper of Utah. Its influence circulates in every mining camp and city of Montana and Idaho, (to which it gives the telegraphic messages,) while *most* (not least) of the Pacific papers, make it the most advertising propitious for advertising in these heretofore Territories.

We never display advertisements in double columns. With our paper's simple form we ascertain that this kind of copy often it will appear and us considerable annoyance and expense.

It appears from a communication in another column that Fahrangat City is growing rapidly.

Jose BILLINGS thinks there used to be more fun in thirty cents than there is now in seven dollars and a half.

MARIA TARKET, who is coming from Sweden, is said to excel Jenny Lind in vocal powers.

BIRTH.—In Great Salt Lake City, June 16th, to the wife of H. J. Slade a daughter.

THE GOLD MARKET.—During the last few days the gold market has been very fluctuating. Monday it ran up to 1.67 in New York, but yesterday it was down to 1.54.

NOTICE.—The members of the Y. M. L. Association are requested to meet at Independence Hall next Friday evening at 7-1/2 o'clock, to make arrangements for celebrating the coming Fourth of July. CHAS. H. HEMPTHEAD, President.

YESTERDAY afternoon we noticed a large, well loaded train hauling up in front of the capacious store of Gilbert & Sons. This enterprising house generally manages to have its trains among the first and most extensive that arrive. They have one now at Fort Bridger, which will arrive in a few days.

IMPORTANT TO THE PUBLIC.—Frequent inquiries having been made as to the proper way to send letters to the Fahrangat mining region, I have to say that the most expeditious way to send them to that District, is to mail letters properly enclosed, in stamped envelopes, under cover, put into a separate envelope, with an additional fifty cent postage currency note, for the use of the Postmaster at Egan Cañon.

A pony express goes from the above named point, twice a week. The fifty cents is required to pay the express charge from Egan Cañon to the mines, and should be so enclosed that when the covered letter is opened, the Postmaster can pay the express charge.

A. G. LAWRENCE,
1 W. Special P. O. Agent.

FROM THE RIVER.—The Leavenworth Times of the 2d says:

The river rose about six inches from Saturday night until Sunday night, when it commenced receding. Up to dark last evening it had fallen over a foot, and it was still declining. There was a driftwood running yesterday. The upper rivers are reported boisterous. The Stonewall and Isabell boats were due from below last night. The St. Johns and Ciara, mountain boats, may be at the levees this morning.

Col. Hoyt knows as the defender of Old John Brown, and also as a gallant soldier in the 7th and 15th Kansas Regiments, has commenced the practice of law in Leavenworth.

Dr. Davis of Leavenworth is a Johnson candidate for the U. S. Senate.

The St. Joseph Herald thinks General Connor will be made a Brigadier General in the Regular Army.

General Pope was to have left Fort Leavenworth for the Plains on the 1st.

THE PRETTY WAITER GIRLS.—Late developments seem to indicate that the "pretty waiter girls" of New York are more than a match for the Legislature of the Empire State and the Metropolitan Police combination. The Legislature tried to put them down by interdicting refreshment at places of public entertainment, and the "waiter girls" instantly changed their base to free concert saloons and evaded the law. The Excise Commissioners next thought to quiet them by refusing to grant licenses to places where females were kept as "waiters." Yet the "pretty waiter girl" still lives, adapting herself to circumstances; has taken the temperance pledge, and now openly defies Police Superintendent Kennedy. In other words, the "pretty waiter girls" always on Broadway have decided to keep open and sell ice creams, cordials, soda, pastry, fruit, sugars, &c. At the "Metropolitan," the "Oriental," and the "Zouave," the leading concerns of this kind in New York, a bountiful supply of these things are retailed nightly.

From California.

From the Enterprise, San Francisco, June 14. Judge Hoffman has ordered a decree of forfeiture to be entered against 1,221 cases of plumb and 41 cases of wine, seized for violation of the revenue laws.

The late S. S. Rawson, who was a few days since found dead at the Washington lodging house, was a graduate of Waterville College, Maine, in the class of 1828. Among his classmate were the Hon. James Brooks of the New York Express, and the Reverend Drs. Chaplin and Cummings, well known divines in the East.

Late Sydney paper mentioned the death of Ted Wilson, the band master of Wilson's Circus, who was well known throughout this State.

Private telegram to the 15th inst. quote an advance in gold at 1.46. Sterling Exchange remained without decided change ruling 109-2 to 109-24, for sixty days and 111 for eight bills.

The sales of the Evening Board were: Yellow Jacket at \$675; Opie, \$340; Chollar-Petron, \$190; Petron, \$195; Imperial, \$110; Bullion, \$60; Confidential, \$95.

CAPTAIN GRIMES, A. Q. M., at Camp Douglas, invites proposals for him.

From Montana.

The *Diamond* of St. Louis 16th, gives the following:

Stafford & Gifford have started a new line of six-horse Concord coaches between Virginia and Helena.—One thousand troops are expected at Fort Benton soon.—The Gray Troupe is doing well at the "People's" in Virginia.—French's two children were drowned in Grasshopper Creek on the 1st.—In Virginia, St. Louis Flour is \$20.00 a 22.00. Salt Lake Fleur, \$9.00 a \$10.00; Bacon 50 a 55 cts; Hams, 55 a 60 cts; and Sugar 45 a 50 cts.

ABOVE THE INDIAN DEPARTMENT.—A bill has been introduced by Mr. Stewart of Nevada, providing for the transfer of the Bureau of Indian Affairs from the Interior to the War Department, with a view to breaking up alleged abuses of the Bureau, but still leaving in place of the entire control of Indian affairs in that Department where the immediate and efficient co-operation of the military arm may be had when exigency demands it. If the bill should pass, we may accept it as the evidence that Congress has become satisfied that a severe policy of repression and punishment of Indian outrages must replace in a great measure the present system of "moral suasion." It sounds vindictive and cruel, perhaps, to say it, but experience has shown that a limited policy is utterly lost upon those roving tribes who ever and anon break up our overland mail system, massacre overland emigrants and disperse mining parties on the far frontier. Indian outbreaks will soon cease when the judicious exercise of the military power shall have made it clear that swift and certain punishment will overtake the aggressor, whether he be an Indian or a white man.—Washington Correspondent San Francisco Bulletin.
